Portfolio – <https://famous-torrone-6d4e2a.netlify.app/>

Summary

Full Stack / MERN Stack Developer with hands-on experience in React.js, Node.js, Express.js, MongoDB, and RESTful APIs. Proven ability to build secure, scalable, and responsive web applications with authentication, CRUD operations, and performance optimization. Strong understanding of frontend architecture, backend development, database design, and modern UI/UX practices. Proven ability to translate business requirements into clean, maintainable technical solutions. Actively seeking opportunities as a Full Stack / MERN Developer.

Key Achievements

- Built and deployed multiple MERN stack applications used for real business workflows with secure authentication systems using JWT.
- Improved frontend performance and user experience through component optimization.
- Delivered end-to-end features independently from database to UI.

Internship

Web Development Intern

CORIZO | Aug 2024 - Sep 2024

- Developed a feature-rich E-commerce web application using React.js.
- Implemented user authentication, product management, shopping cart, and secure payment workflows.
- Applied responsive design principles to ensure seamless performance across devices.
- Improved application performance and user experience through optimization techniques.
- Gained real-world exposure to modern web development practices.

CORIZO — Certificate Link

Web Development Internship Certificate | Sept 2024

Projects

E-Commerce Web Application

React.js | Node.js | Express.js | MongoDB | April 2025

- Built a complete MERN-based e-commerce platform with user and admin authentication (JWT).
- Developed separate dashboards for users and admins.
- Implemented CRUD operations for product management (admin panel).
- Added advanced features such as real-time filtering, category-based search, and dynamic search bar.
- Designed a clean, responsive UI using Tailwind CSS.
- Created robust backend APIs for users, products, and authentication.

Professional Experience

MERN Stack Developer | Thermo Packers | Full-time

- Developed and maintained MERN stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Designed and implemented RESTful APIs for internal business applications.
- Worked on authentication & authorization (JWT) and role-based access control.
- Built reusable React components and optimized frontend performance.
- Collaborated with non-technical teams to translate business requirements into technical solutions.
- Improved application stability, scalability, and maintainability through clean code practices.
- Reduced page load time by optimizing React components and API calls.
- Implemented JWT authentication for multiple user roles (accounts/user).

Technical Skills :

- **Programming Languages:** JavaScript (ES6+)
- **Frontend Technologies:** HTML5, CSS3, React.js, Tailwind CSS, React Native
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases:** MongoDB
- **Developer Tools:** Git, GitHub, VS Code, Figma, Netlify
- **Key Skills :** • Full Stack Development • MERN Stack • CRUD Operations • API Development • Authentication & Authorization • REST API Design • MVC Architecture • Responsive Web Design • Performance Optimization • Debugging & Testing • Git Version Control

Education

Lovely Professional University, Punjab

Jalandhar, Punjab | 2020 – 2024

Computer Science and Engineering — CGPA: 6.6

Patna Central School, Patna

Patna, Bihar | 2019 – 2020

12th with Science — Percentage: 76%

Patna Central School, Patna

Patna, Bihar | 2016 – 2017

10th with Science — CGPA: 9.6

Additional Information

- Actively seeking Full Stack / MERN Stack Developer roles
- Strong interest in scalable systems and modern frontend frameworks
- Quick learner with a growth mindset
